

EXTRUSION

Producing millions of feet of medical tubing annually

- ▶ New Product Development
- ▶ Single-to Multi-lumen, Tapered and Profile
- ▶ Core Mandrel
- ▶ Expandable
- ▶ Corrugated & Smooth Corrugated
- ▶ Heated Wire

80+ Extrusion Lines

- ▶ Broad range of materials including commodity, engineered and highly engineered
- ▶ Extremely tight tolerances with diameters* ranging from:
 - 0.2 to 25mm for single-to multi-lumen, tapered and profile (0.008 -1")
 - 8 to 38mm for corrugated (0.31" -1.5")
 - 0.3 to 2.9mm for core mandrel (0.012 -0.115")
- ▶ Successful track record of process innovation to deliver novel tubing concepts with inline manufacturing for quality and value
